

SECURE VAULT

SECURE VAULT

SecurePrint Vault is a Personal Biometric Safe that guards your most valuable possessions using the latest in fingerprint recognition technology. Once authorized, your fingerprint is the key. Operation is simple; One swipe of the finger to unlock. With SecurePrint Vault opening in less than one second, there is no need to worry about carrying and securing keys or remembering pin codes.

SecurePrint Vault was designed to allow easy transportation of valuables on the go, or store them securely at home and is ideal for in-vehicle use (fits glove box or center console of most vehicles). SecurePrint Vault can also be permanently anchored in a secure or hidden location. Our revolutionary fingerprint activated safe provides quick, convenient access whenever needed. SecurePrint Vault is engineered from heavy-gauge steel and has an extremely tough "Powder Coated" finish. The high-strength mechanical locking mechanism will give you years of reliable service and is virtually impenetrable using hand tools. SecurePrint Vault will fit easily inside a desk drawer, can be hidden inconspicuously in a closet or nightstand or can be easily secured in virtually any location.

SecurePrint Vault offers you affordable peace of mind at the touch of a finger!

Manufacturer Specifications

- Primary Function: Fingerprint Access Safe
- Primary Materials: 16 gauge black steel exterior with thick memory retentive foam interior
- Mechanism: Fingerprint biometric lock, key lock override, omni-directional spring-loaded door.
- Color: Black
- Finish: Powder Coated
- Biometric Resolution: 500DPI
- Verification and comparison time: $\leq 1s$
- False rejection rate (FRR): $\leq 0.01\%$
- False acceptance rate (FAR): $\leq 0.0001\%$
- Static current: $\leq 12\mu A$
- Dynamic current: 110MA~180MA
- Battery Life: Approx 12 months
- Power Source: 4x AA batteries
- Dimensions:
 - Outer Dimension: L:270 x W:189 x H:50 (mm)
 - Inner Dimension: L:200 x W:184 x H:43 (mm)

Product Notes

- If the security box runs out of power then it can be opened with the key (new batteries should last 12-months and can easily be replaced as needed)
- Retains your fingerprints even when the batteries are changed
- Quarter-turn lock comes with 2 keys which can be used as additional security to your lock box
- Attaches to any fixed object with included 1,500lb rated security cable
- Meets TSA airline fire arm guidelines
- Can be mounted under the seat in any car or truck, or at home in any similarly compact space. Fits J and K-frame revolvers (up to 4" barrel) and semi auto handguns
